Off-Campus Medical/Healthcare Resources
A medical provider can provide emergency and/or follow-up medical services as appropriate, and a person can discuss any related health care concerns in a confidential medical setting. The medical examination has two primary goals: (i) to diagnose and treat the full extent of any injury or physical effect (sexually transmitted infection or pregnancy) and (ii) to properly collect and preserve evidence. There is a limited window of time within which to preserve physical and other forms of evidence (usually within 96 hours of the sexual assault). Taking the step to gather evidence immediately does not commit a person to any course of action.
